Hi Roshni,

As discussed earlier, I was initially open to considering an early release. However, after the earlier communication that my request would not be processed and that I would be required to serve the complete notice period till 5th June, I aligned my personal and professional commitments accordingly.

Additionally, I am currently facing ongoing health issues and undergoing medical consultation for the same. I also have supporting medical reports regarding my condition. Due to my present health situation, it would not be feasible for me to proceed with an early release or complete the formalities by 15th May.

Considering both my current medical condition and the commitments planned based on the previously communicated notice period timeline, I would request you to kindly retain my original last working day as 5th June. Accordingly, I will complete the document and asset submission process by then.

I request your understanding and support on this matter.

Regards,
Rishika Jain

Hi [Patekar, Roshni](#),

I would like to bring to your notice that it would not be feasible for me to complete the exit formalities and asset submission by 30th April due to my current constraints.

As previously communicated, my plans were impacted as my earlier request for early release could not be approved at that time, and accordingly my schedule is aligned now.

I request you to kindly allow me time until 15th–16th May to complete all formalities and return the company assets. I will ensure a smooth handover from my end within this timeline.

Thanks & Regards,
Rishika Jain
